

Helping You Help Your Constituents

It's as easy as copy, cut and paste

The Federal Emergency Management Agency (FEMA) maintains an extensive library of web-based resources to help all of our stakeholders prepare for, protect against, respond to, recover from, and mitigate all hazards.

These websites are valuable resources for both you and your constituents. We encourage you to explore our websites, starting with www.fema.gov. We've organized a list of the sites we think you'll find most relevant and have provided hyperlinks below to each.

In addition to resources for your constituents, we have included links to FEMA policies, current news and a guide to the disaster declaration process. These sites, which are open to public viewing as well, are intended to help you and your staff understand our mission and specific Stafford Act guidelines.

We encourage you to share any or all of FEMA's web resources by including the hyperlinks on your web page. **Just copy, cut and paste.**

Contracting with the Federal Government

For businesses interested in contracting with FEMA, the [Industry Liaison Program](#) has created a process to ensure that information is routed to the appropriate FEMA contracting professional.

- Submit a [FEMA Vendor Profile](#) to the Industry Liaison Support Center (ILSC) at FEMA-Industry@dhs.gov.
- Register with the [System for Award Management](#) (SAM), the primary market research tool for contracting officers. Visit the SAM website or call **866-606-8220** to register.

For more information, visit [Doing Business with FEMA](#).

For specific contracting concerns and guidance during this process, contact the ILSC at **202-646-1895** or send an email to FEMA-Industry@dhs.gov.

FEMA's mission is to support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from, and mitigate all hazards.
