## Parks

**Memorial Park**  
 Lawrence & Engleman

**Rotary Park**  
 Lawrence & State Park

**Lions Park**  
 State Park & MacArthur

**Parks Open 8 am—Dusk**  
 Remember no vehicles or alcohol without permit.

### Pavilion Rental

Registration for pavilion rental begins 2/1/2021 for Center Line residents.

Pavilions open to non-residents after May 3, 2021 each year. Payment is due in full at the time of booking. Cash and check accepted.

**Residents** \$75 plus \$50 security deposit

**Non-Profit** \$75 plus \$50 security deposit

**Non-Residents** \$100 plus \$50 security deposit

**Corporate** \$100 plus \$50 security deposit

**Flat Weekday** \$50 plus \$50 security deposit

## Rec Center

### **Business Hours**

Monday-Friday 9 AM-6 PM

## Library Hours

**Monday & Wednesday** 10 am—5 pm

**Tuesday & Thursday** 10 am—7 pm

**Friday & Saturday** 12 pm—5 pm

## Hall Rentals

### **Saturday & Sunday Only**

\$40 hour for Residents

\$45 hour for Non-Residents

\$100.00 Refundable Security Deposit

4 hour min. 6 hour max

Must put \$100.00 deposit down to hold the hall. Balance must be paid in full one month before the party.

### Game Room

Ages 10 & up

14 & up for Billiards, high school ID required. Includes: Billiards, Ping Pong, Shuffle Board & Air Hockey plus card and board games.

Available to all who live, work, or attend school in Center Line.

**Center Line Public Library**  
**7345 Weingartz Center Line, MI**  
**(586) 758-8274**

## HUNTER SAFETY CLASS

This class is necessary for anyone who has never had a hunting license and was born after January 1, 1960. This is a weekend class, **attendance is mandatory both days**. Range time is scheduled for Sunday afternoon. Please dress appropriately for the weather. Bring a lunch and beverage both days. Class is limited to 25. A parent/guardian must register anyone under 18 years of age. Meets at the Center Line Parks & Recreation Center, 9 a.m. to 3 p.m. Fee is \$10 and **MUST** be paid at time of registration. Classes will be held at the Center Line Rec Center 586-757-1610.

### YOUR CHOICE OF WEEKEND:

## Cookie Walk!

Support the Friends of the Center Line Library in a most delicious way! Homemade cookies & other goodies will be available for \$7/per lb beginning promptly at 6:00 pm at our 68th annual tree lighting ceremony on 12/12/20 until there are only crumbs left! All proceeds fund library programs!

# PARKS & RECREATION TRIPS & EVENTS

**Michigan Adventure**  
**August 15th**  
 Bus leaves from City Hall at 7:30 AM. All day drink wrist band and meal included.  
 Res. \$52 Non-Res. \$57.

**St. Anne Parish & Andiamo**  
**October 16th**  
 Bus departs from City Hall at 9:30 AM. We will be going to Andiamo's in the Renaissance Center for lunch. Res. \$30 Non-Res. \$35.

**Birch Run–Bronner's & Frankenmuth**  
**November 21st**  
 Bus leaves from City Hall at 8:30 AM. We will start the day at Birch Run, then enjoy a couple of hours in Frankenmuth, and lastly a stop at Bronner's before we head home. This trip does

**not** include any meals but you will have plenty of time to relax and eat. \$15 Res. \$20 Non-Res.

**MIS Night Lights**  
**December 19th**  
 Ring in the holiday season with a 5 mile bus ride through MIS. Before we go to MIS we will be having dinner at Jerry's Pub. Call for pricing.

**These trips are subject to change in the dates and or pricing.**  
**Call the Rec to find out more info at 586-757-1610**

**Yoga Sessions**  
 Session 3: 7/9 –8/20  
 Res. \$40 Non-Res. \$45  
 Session 4: 4/9 –10/22  
 Res. \$30 Non-Res. \$35  
 Session 5: 5/12 –1/21  
 Res. \$30 Non-Res. \$35

**Chair Yoga**

Session 3: 7/9 –8/20 Res. \$30 Non. Res. \$35  
 Session 4: 4/9 –10/22 Res. \$30 Non. Res. \$35  
 Session 5: 5/12 –1/21 Res. \$30 Non. Res. \$35

**American Red Cross**

**City of Center Line Blood Drive**

**July 30, 2020 9 am—7 pm**

Save up to 3 lives with one blood donation! Call to make an appointment at (586) 757-1610 or visit [www.redcrossblood.org](http://www.redcrossblood.org) and in the "Find a Blood Drive" box enter **cityofcenterline** to donate.

**SENIOR POOL LEAGUES**

Come play 8-Ball on Tuesday mornings. Registration is required. Please call CL Parks & Recreation at (586) 757-1610 if you are interested in joining the league. \$5 to register—players play for bragging rights, a cup of coffee, and a great time.

## Regular Library Programs

### Off the Hook

A club for knitters and crocheters. Please bring your own supplies, and craft in the company of others in the Library's Reading Room every Thursday from 5 to 6:30 PM. Begins in July 2020.

### Pageturners Book Club

Read a book and then discuss it with other local bibliophiles. Held every third Tuesday of the month at 6 PM in the Library's Reading Room. Pick up the month's title at the Circulation Desk. Begins in July 2020.

### Pajama Family Storytime

Get dressed in your PJ's and enjoy a few picture books read aloud by one of the Library's employees. Drop-ins are welcome! Held on the following dates: September 1st to September 22nd, October 13th to November 3rd, November 24th to December 15th. Held at 5 PM.

### DIY Greeting Cards Class with Lori Smith

One of the Library's longest held programs. Craft a handful of cards every fourth Monday of the month at 6 PM. Supply fee of \$10 due at the start of each session. Begins in July 2020.

### Featured Monthly Programs

For a complete and updated listing of Library events, visit [www.centerline.gov/202/library](http://www.centerline.gov/202/library) and click on Programs.

### Native American Mythology for Kids, Weds., July 15 at 6 PM

Native American stories are filled with amazing tales of courage, fantasy and cleverness. This program will feature interactive stories, chants and creative movements.

### Jazz Cycle Performance, Sat., July 18 at 6 PM

Enjoy a concert with the Jazz Cycle. This six-member group will perform standard swing, straight ahead jazz, bebop, fusion, Latin, blues and ballads for your listening pleasure.

### Wicked Women in Michigan History, Wed., August 19 at 6 PM

Take a peek behind the walls of the old Detroit House of Correction, the only Michigan prison to house female inmates serving long-term sentences, and meet some of the most dangerous women in Michigan history. Presented by true crime author Tobin T. Buhk, who published *Michigan's Most Dangerous Women*.

### TechKNOWKids STEAM, Fri., August 28 at 6 PM

Children will be creative in doing an engineering-themed project. Perfect for elementary-aged kids.

**eBooks & eAudiobooks**  
Download the Libby app. 

**rb Digital Magazines**  
Download the RB Digital app.

**MANGO Foreign Languages**  
Download the Mango Languages app.

**Craft Classes**  
Download the Creativebug app. 

## ELECTRONIC RESOURCES

Access these electronic resources with your library card barcode and PIN.

**Fall Bulbs with English Gardens' Jim Miller, Wed., September 9 at 6 PM**

Learn all about planting tulips, daffodils, etc. bulbs for Spring with Jim Miller from English Gardens. There will be a gardening-related giveaway prize.

**Imagination Celebration, Sat., September 19 at 6 PM**

Members of the Children's Theatre of Michigan will perform several traditional and original sing-along songs and share-along stories for elementary-aged readers that involves everyone singing and doing along in the audience as well as multiple volunteers "up on stage" as characters in the stories.

**Coyote: Our Urban Adapter, Wed., September 23 at 6 PM**

Native Americans told legends about the coyote and yet today this wild canine only seems to see bad press. How can one animal be feared by some and revered by others? Utilizing data collected in recent big city studies, this one-hour educational presentation with Laurel Zoet of Nature on the GO, LLC will look at the biology, the myths and the facts about one of North America's most highly adaptable animals. Ideas for minimizing human-coyote conflict will also be shared.

**Budapest Travelogue, Sat., October 3 at 2 PM**

Discover the magical capital city of Budapest with world traveler Mariya Fogarasi.

Check us out on Facebook and Instagram!  
@centerlinelibrary

**Sheila Landis Concert, Weds., October 14 at 6 PM**

Vocalist/percussionist Sheila Landis and 7-string guitarist Rick Matle present an appreciation of the music of Brazil, emphasizing "Bossa Nova" and "Samba" styles. Preforming mainly the delightful compositions of Brazilian composer Antonio Carlos Jobim (know for his iconic "Girl from Ipanema"), Landis and Matle celebrate a sophisticated yet grooving hybrid of European harmonic foundations propelled by African-based syncopated rhythms.

**Detroit Unseen, Fri., November 6 at 6 PM**

Bob Huston, a photographer who is very passionate about the city of Detroit, has been capturing images of the city's historic and forgotten structures for nearly 10 years. These images have become a project called Detroit Unseen, which helps to capture and document Detroit's changes within a positive context.

**Thanksgiving STEAM, Tues., November 10 at 5:30 PM**

Complete a fun, Thanksgiving-themed engineering project with Miss Cathy Foster from TechKNOWKids. Perfect for elementary-aged children.

**Constellations 101, Weds., December 2 at 6 PM**

The stars in our sky tell stories passed down to us through the ages. Mythology expert Harry Campion will share some of the interesting stories of the constellations.

**Curbside Pickup**

Center Line Public Library will be offering curbside pickup for materials that patrons might have on hold or are currently on the Library's shelves.

Call the Library at (586) 758-8274 for details or to get started with your curbside pickup "order".

# Summer Reading Challenge 2020

Name: \_\_\_\_\_

Put a ✓ in the circles when done.  
Return to Center Line Public Library  
by Labor Day to collect your prize.  
Forms also available at the Library  
and on the Library's website. All ages.

Center Line Public Library  
7345 Weingartz  
Center Line, MI 48015  
[www.centerline.gov/202/library](http://www.centerline.gov/202/library)  
(586) 758-8274  
@centerlinelibrary

## Senior Transportation

Center Line Parks & Recreation, in cooperation with Warren Parks and Recreation, offers a curb-to-curb senior transportation service. This service helps seniors and handicapped persons remain independent for life. **Please be advised that drivers are NOT allowed to leave the vehicle to assist passengers in any way.**

### Eligibility & Who to Call

Any Center Line resident 55 years of age or older; or handicapped individuals of any age. All trips must be scheduled through the dispatcher. Hours are: Monday—Friday, 8 am—3 pm.

Please contact the Transportation Dept. for further information regarding fees, appointments and shopping trips:

**586-268-0551.**

## LITTLE FREE LIBRARY

Check out our Little Free Library outside of Center Line Parks & Recreation. Take a book, leave a book!

**IF YOU ARE EXPERIENCING ANY COVID-19 SYMPTOMS, PLEASE STAY HOME.**

**WHEN ENTERING PUBLIC BUILDINGS, FOR YOUR OWN SAFETY AND FOR THAT OF THE STAFF MEMBERS, PLEASE WEAR A MASK.**

**THANK YOU!**

**Northeast Water Treatment Plant  
2019 Regulated Detected Contaminants Tables**

<b>2019 Inorganic Chemicals – Monitoring at the Plant Finished Water Tap</b>								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest Level Detected	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Fluoride	6-11-19	ppm	4	4	0.72	n/a	no	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate	6-11-19	ppm	10	10	0.48	n/a	no	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Barium	5-16-17	ppm	2	2	0.01	n/a	no	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits

<b>2019 Disinfection By-Products – Monitoring in Distribution System, Stage 2 Disinfection By-Products</b>								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Allowed Level MCL	Highest LRAA	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Trihalomethanes (TTHM)	2019	ppb	n/a	80	56	9-30	No	By-product of drinking water chlorination
Halooacetic Acids (HAA5)	2019	ppb	n/a	60	15	3-12	No	By-product of drinking water disinfection

<b>2019 Disinfectant Residuals – Monitoring in Distribution System by Treatment Plant</b>								
Regulated Contaminant	Test Date	Unit	Health Goal MRDLG	Allowed Level MRDL	Highest RAA	Quarterly Range of Detection	Violation yes/no	Major Sources in Drinking Water
Total Chlorine Residual	Jan-Dec 2019	ppm	4	4	0.74	0.45-0.83	no	Water additive used to control microbes

<b>2019 Turbidity – Monitored every 4 hours at Plant Finished Water</b>			
Highest Single Measurement Cannot exceed 1 NTU	Lowest Monthly % of Samples Meeting Turbidity Limit of 0.3 NTU (minimum 95%)	Violation yes/no	Major Sources in Drinking Water
0.13 NTU	100 %	no	Soil Runoff

Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our filtration system.

**Northeast Water Treatment Plant  
2019 Regulated Detected Contaminants Tables**

<b>2019 Lead and Copper Monitoring at Customers' Tap</b>								
Regulated Contaminant	Test Date	Unit	Health Goal MCLG	Action Level AL	90 <sup>th</sup> Percentile Value*	Number of Samples over AL	Violation yes/no	Major Sources in Drinking Water
Lead	2019	ppb	0	15	8	0	No	Corrosion of household plumbing system; Erosion of natural deposits.
Copper	2019	ppm	1.3	1.3	0.1	0	No	Corrosion of household plumbing system; Erosion of natural deposits; Leaching from wood preservatives.

\*The 90th percentile value means 90 percent of the homes tested have lead and copper levels below the given 90th percentile value. If the 90th percentile value is above the AL additional requirements must be met.

Regulated Contaminant	Treatment Technique 2019			Typical Source of Contaminant
Total Organic Carbon (ppm)	The Total Organic Carbon (TOC) removal ratio is calculated as the ratio between the actual TOC removal and the TOC removal requirements. The TOC was measured each quarter and because the level was low, there is no TOC removal requirement			Erosion of natural deposits
<b>Special Monitoring 2019</b>				
Contaminant	MCLG	MCL	Level Detected 2019	Source of Contamination
Sodium (ppm)	n/a	n/a	6.37	Erosion of natural deposits

These tables are based on tests conducted by GLWA in the year 2019 or the most recent testing done within the last five calendar years. GLWA conducts tests throughout the year only tests that show the presence of a substance or require special monitoring are presented in these tables.

**Northeast Water Treatment Plant**  
**2020 Regulated Detected Contaminants Table**

Special Monitoring 2018				
Contaminant	MCLG	MCL	Level Detected 2018	Source of Contamination
Sodium (ppm)	n/a	n/a	<b>5.94</b>	Erosion of natural deposits

Great Lakes Water Authority voluntarily monitors for Cryptosporidium and Giardia in our untreated source water monthly . The March 2018 untreated water samples collected at the Belle Isle intake indicated the presence of one Giardia cyst. All other samples collected from the Belle Isle Intake in the year 2018 were absent for the presence of Cryptosporidium and Giardia from the Belle Isle Intake. Systems using surface water like GLWA must provide treatment so that 99.9 percent of Giardia Lamblia is removed or inactivated.

**Required Language 2018:**

Your report must contain basic information about drinking water contaminants. Use the following language, or you may write your own comparable language that better fits your specific local situation:

Mandatory language regarding contaminants reasonably expected to be found in drinking water. (§141.153(h)(l)(i) through (iv)).

\*Drinking water, including bottle water may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- **Microbial contaminants**, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- **Inorganic contaminants**, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- **Pesticides and herbicides**, which may come from a variety of sources such as agriculture and residential uses.
- **Organic chemical contaminants**, including synthetic and volatile organics, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems.
- **Radioactive contaminants**, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. The Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.\*

**Warning about the vulnerability of some populations to contaminants in drinking water. (§151.154(a)).**

\*Some people may be more vulnerable to contaminants in drinking water than is the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/Aids or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791)\*

**Educational information about lead if more than 5% and up to and including 10% of homes sampled exceed 15 ppb AL.** <sup>1</sup>(If your system samples fewer than 20 sites and has even one sample above the AL you'll need to include the standard explanation for an AL exceedance) **or if lead and cooper is detected in the sampling pool, even once, above the action level. Health effects language for lead must be included in the report:**

Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is available from Safe Drinking Water Hotline (800-426-4791).

## **Level One and Level Two assessment if conducted**

**New LCR CCR requirements covering the year 2009 water supplies must include information about lead, even if lead is not detected: Replaces old language (see CCR letter from MDEQ 2008). Lead and Copper language required 40 CFR 141.154**

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of Center Line is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

**Required language source water protection Detroit River Intakes: for communities receiving water from one or more of the following water plants; Water Works Park, Springwells, Northeast, and Southwest.**

Your source water comes from the Detroit River, situated within the Lake St. Clair, Clinton River, Detroit River, Rouge River, Ecorse River, watersheds in the U.S. and parts of the Thames River, Little River, Turkey Creek and Sydenham watersheds in Canada. The Michigan Department of Environmental Quality in partnership with the U.S. Geological Survey, the Detroit Water and Sewerage Department, and the Michigan Public Health Institute performed a source water assessment in 2004 to determine the susceptibility of GLWA's Detroit River source water for potential contamination. The susceptibility rating is based on a seven-tiered scale and range from very low to very high determined primarily using geologic sensitivity, water chemistry, and potential contaminant sources. The report described GLWA's Detroit river intakes as highly susceptible to potential contamination. However, all four GLWA water treatment plants that service the city of Detroit and draw water from the Detroit River have historically provided satisfactory treatment and meet drinking water standards.

GLWA has initiated source-water protection activities that include chemical containment, spill response, and a mercury reduction program. GLWA participates in a National Pollutant Discharge Elimination System permit discharge program and has an emergency response management plan. In 2016, the Michigan Department of Environmental Quality approved the GLWA Surface Water Intake Protection Program plan. The programs includes seven elements that include the following: roles and duties of government units and water supply agencies, delineation of a source water protection area, identification of potential of source water protection area, management approaches for protection, contingency plans, siting of new sources, and public participation and education activities. If you would like to know more information about the Source Water Assessment report please, contact GLWA at (313-926-8102).

And/Or

**Required language source water protection Lake Huron Intake; for communities receiving water from Lake Huron Plant:**

Your source water comes from the lower Lake Huron watershed. The watershed includes numerous shorts, seasonal streams, that drain to Lake Huron. The Michigan Department of Environmental Quality in partnership with the U.S. Geological Survey, the Detroit Water and Sewerage Department, and the Michigan Public Health Institute performed a source water assessment in 2004 to determine the susceptibility of potential contamination. The susceptibility rating is a seven-tiered scale ranging from "very low" to "very high" based primarily on geologic sensitivity, water chemistry, and contaminant sources. The Lake Huron source water intake is categorized as having a moderately low susceptibility to potential contaminant sources. The Lake Huron water treatment plant has historically provided satisfactory treatment of this source water to meet drinking water standards.

In 2015, GLWA received a grant from the Michigan Department of Environmental Quality to develop a source water protection program for the Lake Huron water treatment plant intake. The program includes seven elements that include the following: roles and duties of government units and water protection area, management approaches for protection, contingency plans, siting of new sources and public participation and education. If you would like to know more information about the Source Water Assessment report please, contact your water department (586-758-8278).

Include information about **UCMR3 monitoring** if it was conducted in 2015 or 2016 and **UCMR4** monitoring for 2018 if you detected any chemicals and the latest information must be report **annually for 5 years**.

It is necessary that yard waste, recyclables and solid waste be placed at the curb no earlier than the evening before the scheduled pick up, and no later than 7:00 a.m., on your pick up day. Failure to place your waste containers during the required times, will result in your containers **not being** picked up.

For more information about trash days, recycling, and brush chipping, visit <http://www.centerline.gov/public-works>

### Key to the Detected Contaminants Table

Symbol	Abbreviation	Definition/Explanation
>	Greater than	
°C	Celsius	A scale of temperature in which water freezes at 0° and boils at 100° under standard conditions.
AL	Action Level	The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements which a water system must follow.
HAA5	Haloacetic Acids	HAA5 is the total of bromoacetic, chloroacetic, dibromoacetic, dichloroacetic, and trichloroacetic acids. Compliance is based on the total.
Level 1	Level 1 Assessment	A Level 1 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why total coliform bacteria have been found in the water system.
Level 2	Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why an E. coli MCL violation occurred and/or why total coliform bacteria have been found in our water system on multiple occasions.
LRAA	Locational Running Annual Average	The average of analytical results for samples at a particular monitoring location during the previous four quarters.
MCL	Maximum Contaminant Level Goal	The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Residual Disinfectant Level	The level of contaminant in drinking water below which there is no known or expected risk to health.
MRDL	Maximum Residual Disinfectant Level	The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum Residual Disinfectant Level Goal	The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.
n/a	not applicable	
ND	Not Detected	
NTU	Nephelometric Turbidity Units	Measures the cloudiness of water.
pCi/L	Picocuries Per Liter	A measure of radioactivity
ppb	Parts Per Billion (one in one billion)	The ppb is equivalent to micrograms per liter. A microgram = 1/1000 milligram.
ppm	Parts Per Million (one in one million)	The ppm is equivalent to milligrams per liter. A milligram = 1/1000 gram.
RAA	Running Annual Average	The average of analytical results for all samples during the previous four quarters.
TT	Treatment Technique	A required process intended to reduce the level of a contaminant in drinking water.
TTHM	Total Trihalomethanes	Total Trihalomethanes is the sum of chloroform, bromodichloromethane, dibromochloromethane and bromoform. Compliance is based on the total.
µmhos	Micromhos	Measure of electrical conductance of water

## Emergency 9-1-1 Call in Any Suspicious Activity (586) 757-2200

### Drug Disposal Program

Unused and expired medications can be properly disposed of at the Center Line Public Safety Department at no cost or questions. A secured collection box has been placed in the lobby, items can be disposed of 24 hours and 7 days a week.

#### Accepted Items:

Unused medications—no liquids  
Expired medications  
Medicated ointments/lotions  
Over the counter medications  
Inhalers

#### Prohibited items:

Liquids  
Needles/syringes  
Thermometers  
Aerosol cans

### Pet Owners

All dogs are required to be licensed through the Macomb County Animal Shelter. Contact the Macomb County Animal Shelter (586) 469-5115 or online at the link below.

## ASSESSING NEWS

The City Assessor is responsible for maintaining accurate assessment records. Accuracy of assessment records is important to help maintain uniformity of assessments. Assessment records are available during normal business hours at City Hall, or through the Assessor's Office page on the City website, or call the City office at (586) 757-6800 for further information.

Two methods of record maintenance we use are:

- A) The "Re-Inventory" program started in 2013, will continue during summer of 2019, the area this year will be East of Van Dyke North of Helen; Note field personnel will have photo identification.
- B) Review of building permits. This involves a physical inspection and measurement of property where physical change has occurred.

Prior to the conducting the Re-Inventory field visit, the Assessing Department will mail a letter to property owners in the Re-Inventory area, the notice will provide estimated dates we will be in the area conducting the Re-Inventory project.

For 2019 Assessment Change Notices will be mailed by March 1<sup>st</sup>. The March Board of Review will meet to hear appeals during the week of Monday March 11<sup>th</sup>, through Friday March 15<sup>th</sup>, 2019. The 2019 Assessment Change Notice will have the actual dates and times. Please verify all information on the notice carefully before making an appointment with the Board of Review. Appeals to the Board of Review are by appointment only. Calling the Assessing Office to discuss your concerns may alleviate the need for you to personally appear.

## Department of Public Works 586-758-8278

It is necessary that yard waste, recyclables and solid waste be placed at the curb no earlier than the evening before the scheduled pick up, and no later than 7:00 a.m., on your pick up day. Failure to place your waste containers during the required times, will result in your containers not being picked up.

### Solid Waste

**ITEMS THAT WILL NOT BE PICKED UP:** Household batteries, vehicle batteries, paint, motor oil and building materials.

### Hazardous Waste Materials

The Macomb County Health Department, Household Waste Program, located at 43524 Elizabeth Road, Mt. Clemens, will accept gardening, automotive and household products. Call the hotline number at (586) 469-7923 in advance for disposal hours and for a list of items accepted. For more information visit [www.macombcountymi.gov](http://www.macombcountymi.gov).

### Compost/Yard Waste Regulations

#### **Compost/Yard Waste:**

**April 1-Nov 30.**

All yard waste including grass, leaves, plant materials, and brush are to be placed in containers, no larger than 35 gallon receptacles clearly marked **“YARD WASTE ONLY”** or brown paper bags. **Yard waste in PLASTIC bags will NOT be picked up.**

### Holiday Pick Up

Remember--solid waste, recycling and compost scheduled for pick up on a legal holiday will be picked up on the next regular business day. Rizzo Services observes the following holidays: Fourth of July, Labor Day, Thanksgiving Day, Christmas Day.

GFL provides the City of Center Line with excellent solid waste, yard waste, and recycling services for years. Rizzo Services is also providing the city with brush chipping services. Brush chipping will still be done on Wednesdays and will still follow the same guidelines for how brush should be put out for chipping. As a reminder, the guidelines are listed below. Large

brush is defined as pieces of brush longer than 4 feet in length but not exceeding 10 feet, no greater than 4 inches in diameter and generated by the homeowner not a commercial company, single family homes only. It does not include branches or limbs greater than 4 inches in diameter, stumps or dirt balls.

- Please place large brush at the curb on Wednesday with all butt ends facing in the same direction, toward the street.
- Please try not to allow brush to extend over the sidewalk or the curb.

For the safety of workers, all branches with thorns must be placed in yard waste paper bags or containers or tied and bundled for collection under the normal yard waste program.

Remember, small brush will still be picked up on your normal garbage day. Place small brush in yard waste bags or garbage cans marked “Compost” or bundled for collection. Free compost stickers are available at city hall .

## SAFETY TIPS FOR ALL SEASONS

- Remember to lock your vehicle doors at all times
- Keep porch and garage lights on at night to deter trespassers
- Keep garage doors closed
- Be aware of your surroundings at all times.
- If you observe an erratic driver call the police. Be ready to give the make and model of the vehicle, license plate number, color, and direction of travel. We apprehend many drunk drivers because of citizens calling.

### **Pedestrian Crossing**

Please keep in mind that we need to follow the rules of the road when it comes to crossing the street. A reminder that all pedestrian traffic must cross the streets at the intersections within the crosswalk. For your safety, our officers will be enforcing the law and you could be issued a traffic violation. We want you to have a healthy and safe summer.

### **Bikes & Motorcycles**

All drivers should pay extra attention to children on bicycles and people on motorcycles. Please take the extra time to take a second look before you back up, change lanes or make turns. In the blink of an eye disaster can happen.

### **Fireworks**

Under the city ordinance pertaining to fireworks you may only shoot fireworks off the day before, day of, and the day after any national holiday. It is illegal to do so any other time. It is also illegal to shoot fireworks off in any City Park. Violators will be ticketed.

### **Fraud and Scams**

The warm weather brings out the con-men and women. As the years pass, these individuals become more brazen and bold in their scams. Some of the more common scams include: reroofing your house, sealing the cracks in your driveway, checking the water and electricity in your home, and giving them some money for a larger sum later. The intent of these people is to steal from you. If they appear at your door without you first calling them, be suspicious. Never let them in your house. We tell our children and grandchildren not to talk to strangers. When it comes to scam artists, the same holds true for adults. If you become afraid call a neighbor or 911 to make a report. Community involvement is a key to crime prevention in our city.

### **Pets**

Your pets are affected by the heat of summer just like you. Be sure to leave plenty of water available to them. Never leave your pet or child in an enclosed vehicle when you are not present. It takes only a minute for temperatures to reach dangerous levels. Make sure your dog is properly licensed. Licenses are available from the Macomb County Animal Shelter. As responsible pet owners, you should abide by the city ordinance on dogs.

### **Blight**

Our Ordinance officer will be taking an aggressive and proactive approach to blight in the city. If you have any problems pertaining to blight, contact the city and the ordinance officers will follow up on the complaint. Let's

work together to keep Center Line a beautiful city.

### **File for Life**

File For Life is a program designed to give our Public Safety Officers necessary medical information about you in the event that you are incapacitated and cannot communicate with us. All you need to do is pick up the form at the Public Safety Department, fill it out, and keep the form in the File for Life envelope on your fridge. The form will contain basic medical information that would help our officers in the event that we respond to your home for a medical emergency. Our officers will go directly to the refrigerator, retrieve the form and use the information to help you.

# CENTER LINE BEER FEST

MEMORIAL PARK  
25355 Lawrence, Center Line  
12:00 pm – 9:00 pm

Mayflies &  
Laughing Madmen

Entry fee - \$5.00  
(free souvenir glass included)  
Purchase tickets for \$2.00  
1 ticket = 4 oz  
2 tickets = 8 oz    3 tickets = 16 oz

A graphic featuring a stylized American flag with stars and stripes. In the top right corner, there is a circular button with a red top, white middle, and blue bottom, containing the word "VOTE" in white capital letters. The background is a solid red color.

**Vote by Mail: All registered voters have the right to vote by mail.**

**DID YOU KNOW...** You can skip the line on Election Day and vote by mail? Voting has never been easier! With the passage of Proposal 18-3 last November, new changes are available for Michigan voters. One of the biggest changes is that ALL eligible registered voters in Michigan may now request an absent voter ballot without providing a reason. You can also request to be placed on the permanent absentee voter list to save a step in the future. Visit or call the Center Line City Hall to request an application prior to any Election, request to be placed on the permanent list, or if you have any questions about the process (586) 757-6800 Janice Pockrandt Deputy Clerk.
