

Letter from the Mayor

Dear Friends:

I am so proud to congratulate Center Line on our 75th Anniversary.

My parents moved here in 1935-6, just as the city was beginning, and my family has been here ever since. I raised my family here to, and what is so unique about Center Line is the fact that in this metropolitan area, I still see people every day that I grew up with.

Center Line really is a small town experience inside a big city. What I like to see most these days is young families starting out who are moving in to continue our traditions. Center Line is a great place to live, work, raise your family, and play.

I want to invite people to get more involved in the community—we have very popular Parks & Rec programs, an excellent library, and supportive community groups like the Lions.

Going forward, I think it's time to pull together to preserve our historical roots for the generations to come. We can educate our younger people about what it means to be from Center Line—that we care about each other. I hope each and every one of you enjoys our 75th Anniversary Celebration.

Sincerely,

Dave

David Hanselman
Mayor, City of Center Line

Dave and his wife, Kathy.
